## NEW ASSOCIATE MEMBER

CISCO welcomes PNC Capital Advisors as its newest associate member.

The mission at PNC, especially as Trustee of the AFL-CIO Building Investment Trust (BIT), is well aligned with CISCO's mission - to promote the labor movement and use of unionized construction.

Since 1988, the same year CISCO was founded, the BIT has invested \$6 billion developing/acquiring more than 180 properties across the country, generating over 70 million hours of union construction and creating thousands of permanent union jobs. In Chicago alone, the BIT has invested over \$1 billion in 18 projects creating over 4,000 union jobs.

More and more local unions and contractors are recognizing the importance of BIT and PNC's labor-friendly initiatives, so PNC is very hopeful that a partnership with CISCO will help them broaden their reach and facilitate a dialogue that will also help CISCO fulfill its mission of strengthening the unionized construction market.

PNC Capital Advisors, LLC, which has provided institutional asset management services for over two decades, has \$41.1 billion in assets under management (as of 9/30/15).

PNC is one of the investors of the three-tower Wolf Point project at the fork of the Chicago River, where the Near North Side, Loop and Near West Side community areas merge.
