Construction Industry Service Corporation - www.cisco.org - 630.472.9411 - Dan Allen, Executive Director

CISCO's ANNUAL MEETING - FEB. 13

Register NOW for CISCO's Annual Meeting, which will be held on Friday, February 13, 2015. The meeting will feature a dual presentation on "Combating Electronic Fraud: Steps You Can Take To Help Protect Your Company" and "Cyber Liability".

Cyber crime is a multi-billion dollar industry, and this presentation will help you learn how to prevent and protect your organization. Mike Magnesen, Director of Operations for 3Points, LLC, will speak about electronic fraud, while Hunt Insurance will cover cyber liability coverage.

In addition, the meeting will feature the winners of CISCO's Pride in Construction Award. Mark your calendars and contact CISCO to register your members and guests. For more information, call CISCO at 630.472.9411.

ASA CHICAGO CONSTRUCTION EXPO AND SAFETY CONFERENCE - MARCH 3rd

If you are attending the conference, keep your eyes peeled for CISCO's booth! We will be at Booth #112 at the Drury Lane Conference Center in Oakbrook Terrace. Among other things, CISCO will be highlighting its Annual Luncheon scheduled for April 24, its outreach programs for 2015, and our Education-To-Career initiatives.

ANNUAL LUNCHEON - APRIL 24

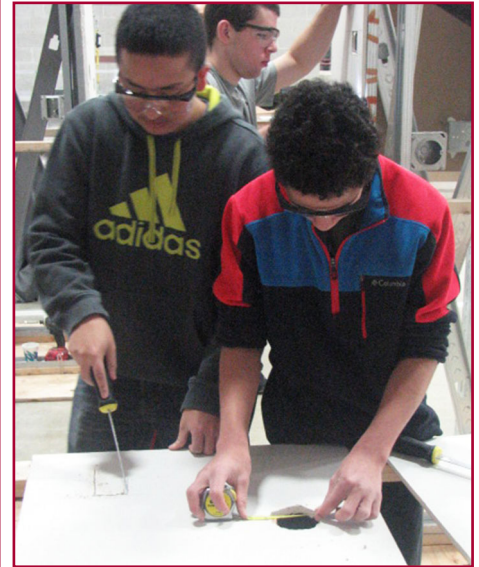

Mark your calendars for Friday, April 24 as CISCO prepares for its 27th Annual Luncheon! The event will be held at Maggiano's Little Italy in Schaumburg. Watch for details of this year's event via invitations and web postings.

DuPAGE HANDS-ON EXPO

Despite the impact that Sunday's foot of snow had on attendance, CISCO's Annual DuPage County Hands-On Expo in Carol Stream on February 3rd was still successful. The event was the 12th anniversary of CISCO's partnership with DuPage County, College of DuPage and the Chicagoland Laborer's Training and Apprenticeship Center. Approximately 85 students attended as several building trades representatives showed students specific techniques in the areas of plumbing, carpentry, using a jackhammer, and much more.

John Retondo, Laborers' Assistant Apprenticeship Coordinator instructs a student on the finer points of jackhammering.

Students at the carpentry station, measure and cut dry wall for electrical outlets.

DuPage Tech Center Instructor Steve Cervenka describes work in the area of refrigeration, heating and air conditioning.

Plumbers Local 130 Apprenticeship Coordinator John Yock oversees a pipe-bending exercise to ensure accuracy.
